Palm Beach Gardens, FL 33418

Edward F. Dunn
Vice President, Supply Chain

Dear Supplier,

At Carrier, sustainability has always been a part of who we are. For over a century we have developed innovative solutions that make buildings more efficient, keep people comfortable and safe, and preserve and transport the global food supply.

The social, ethical and environmental footprint of our products and services is inclusive of our supply base. In addition, international laws and regulations increasingly hold companies like Carrier accountable for the actions of its supply chain. **Fundamental to our sustainability strategy is transparency on the sustainability performance and management systems of our supply base.**

To provide you and Carrier with a benchmark for sustainability performance, we've chosen EcoVadis, a global sustainability ratings company, to assess the sustainability performance of our supply chain. You are receiving this letter today because your company is a supplier to Carrier in one or more of our industry leading brands across our [HVAC](#), [Refrigeration](#) and [Fire & Security](#) segments, and has been identified for mandatory participation in this program.

To complete the assessment, please register on the [EcoVadis platform](#). Once complete, for a [nominal fee](#) to participate, your company will receive a scorecard from EcoVadis with detailed insights into strengths and areas for improvement that can also be shared with other business partners. This information will be valuable to help your company realize benefits of enhanced sustainability. These **assessment results will also be integrated in our sourcing and supplier review processes.** If you have any questions, please reach out to your Carrier contact, or to EcoVadis via support.ecovadis.com.

We measure the effectiveness of our environment, social and governance (ESG) practices through several key performance indicators listed in our [ESG goals](#), and it is imperative that our suppliers join us to achieve even greater sustainable outcomes.

Thank you for taking the steps to complete this assessment and for joining this strategic initiative for a more sustainable future.

Sincerely,

A handwritten signature in black ink that reads "Edward F. Dunn".
