“Share our commitment to sustainability!”

Dear trading partners and suppliers,

Corporate responsibility has a long tradition for the Oetker Group - as a family business, we have always thought in terms of generations. The social, ethical and environmental footprint of our products and services is directly linked to the business practices of our trading partners. In addition, customers, legislators, international organizations and society as a whole demand that we behave in a socially and environmentally responsible manner in our supply chain.

In our role as Heads of Procurements of Dr. August Oetker Nahrungsmittel KG and Radeberger Gruppe KG, we must therefore ensure that our trading partners share our commitment to sustainability and implement it with the same urgency as we do. An important step for us is to gain transparency on the sustainability performance of our trading partners and their suppliers.

To this end, Dr. August Oetker Nahrungsmittel KG and Radeberger Gruppe KG cooperate with EcoVadis, a global rating company operating along international sustainability standards. EcoVadis regularly conducts individual sustainability performance assessments of our suppliers.

We are sharing this letter with you because your company has been identified as one of our most important partners in this context.

We therefore personally ask you to register on the EcoVadis platform and complete the assessment. After answering the questionnaire, EcoVadis will provide you with a sustainability scorecard with detailed insights into your strengths as well as opportunities for improvement. Your assessment results will be incorporated into our supplier review processes.

We encourage you to view the EcoVadis assessment videos and documents. You can find this information [here](#). If you have any questions about our strategy and its impact on your business, please do not hesitate to get in touch with your contacts at Dr. August Oetker Nahrungsmittel KG and Radeberger Gruppe KG.

Thank you in advance for the time you are investing in this assessment as part of our initiative for a sustainable future.

Yours sincerely,

Ole Tilker

Jens Berberich
