Global Vice President, Purchasing and Sustainable Sourcing  
Griffith Foods

## “Creating Better Together”

March 2022

Dear Trading Partners,

We are now entering a new chapter in our Sustainable Sourcing journey: we have launched a sustainable sourcing initiative to not only monitor, but validate the social and environmental performance in our supply chain and we are counting on your participation in this program.

The social, ethical and environmental footprint of our products and services cannot be dissociated from the business practices of our trading partners. International laws and regulations, such as Duty of Care, hold us co-accountable for non-compliant behaviour in our supply chain. Our customers expect us to act responsibly. We owe this to future generations.

In my role as VP Global Purchasing, I must ensure that our trading partners understand the urgency of the matter and share our commitment to sustainability. The first step in our sustainability agenda is to develop transparency around our trading partners' and their suppliers' CSR performance.

In order to make this initiative as efficient as possible for both of us, we have selected the EcoVadis CSR monitoring platform

Along with other leading Fast Moving Consumer Goods (FMCG) companies, Griffith Foods is part of AIM-Progress. AIM-Progress is a forum of leading Fast Moving Consumer Goods (FMCG) manufacturers and common suppliers, assembled to enable and promote responsible sourcing practices and sustainable supply chains. Learn more: <https://www.aim-progress.com/introduction>.

A group of members leverage EcoVadis - a recognized global provider of supplier Corporate Social Responsibility (CSR) ratings - to support us in this mission.

By accepting one AIM-Progress member's assessment request you automatically accept to **share your CSR performance rating with all current and future AIM-Progress members which leverage the EcoVadis platform**. AIM-Progress members not using EcoVadis will have access to your basic company data (Name, Country, Industry, Size, Scorecard date, and Medal if applicable) and may request your rating offline. Learn more: <https://support.ecovadis.com/hc/en-us/articles>

EcoVadis combines CSR expertise and online tools that will save you time and resources on CSR assessment and reporting in the years to come with:

- Confidential and efficient CSR questionnaire and expert analysis
- A CSR Scorecard (which you can share with other clients as well)
- Tools for benchmarking and improving your CSR practices

You should soon receive an invitation email from EcoVadis to begin this process. I am personally asking you to then register on the EcoVadis platform and take the assessment. You will receive a sustainability scorecard from EcoVadis with detailed insights into your strengths along with areas for improvement. This is a good starting point for a sustainable, long-term business relationship. Your regular Griffith Foods procurement contact is available to answer any questions pertaining to our strategy and how it impacts you.

At Griffith Foods, we cannot and do not want to take the risk of cooperating with non-compliant business partners; participation in this program is compulsory. Your assessment results will be integrated into our sourcing and supplier review processes. I strongly recommend [viewing the explanatory videos](#) and documents about the EcoVadis assessment, EcoVadis Terms & Conditions and associated fees included in this communication package.

Thank you in advance for investing your time in completing this assessment and for joining this strategic initiative for a more sustainable future.

Best Regards,
