

**Dear External Business Partner,**

At P&G, Citizenship & Sustainability are embedded in how we do business and how we develop and operate our supply chains. To achieve our goals, we require our entire supply ecosystem to actively engage and collaborate with us. This includes the expansion of the use of the EcoVadis platform.

We are focused to understand where and how our consumers, suppliers, facilities, and the communities we operate in, are most impacted by current and future sustainability challenges. As part of this effort, we request you, as our trusted business partners, to complete the Ecovadis sustainability assessment. This will give you and us valuable insights where we can seize opportunities for positive impact in our supply chains.

You are a strategic partner of P&G! We ask that you share your scorecard with P&G in the EcoVadis system. In case you do not yet have an EcoVadis scorecard, or it has expired, please initiate, or update your assessment.

We thank you for dedicating time to support this request to drive a sustainable future of our supply chains.
